

COLUMNS DETAILS

Gran Via

Hall 1	C101 to C105	page 3
Hall 2	C201 to C211	page 9
Hall 3	C301 to C305	page 21
Hall 4	C401 to C405	page 26
Hall 5	C501 to C505	page 30
Hall 6	C601 to C605	page 36
Hall 7	C701 to C705	page 41
Underwalkway	CU01 to CU04	page 47
Hall 8.0	C8001 to C8005	page 52
Hall 8.1	C8101 to C8105	page 58

INSTRUCTIONS

Please check the floorplans to locate each column type name.

Columns are named as

Technical constraints

No construction elements can be supported by or onto walls, columns or other fixed elements of the halls, and adequate protection must be used or a safe distance must be maintained between the construction materials and the hall walls. In no case should the stability of any object, assembly or structure be conditioned to the infrastructure of Fira de Barcelona. All elements must be self-supporting and self-standing.

Hall columns inside the stand can be cladded without damaging them and in accordance with the permitted height regulations, taking into account the fact that, in the case of connection boxes, these boxes can always be registered. Vinyl columns can only be installed by official Fira suppliers. This service can be contracted through the sales department of Fira Barcelona (www.servifira.com)

In the case of cladding or decorating columns with fire equipment, extinguishers, fire alarm call points, signage or any other informational element of the venue, they must always be visible and accessible. They cannot be manipulated nor broken down.

Cladding policy

← A vinyl can reach up to the upper fire signage

← The cladding cannot cover the upper signage

← Some of the fire equipment in Halls 3, 4 and 6 include fixed switchboards. These columns are marked with the letter *b* after the type name. The switchboards can be cladded but need to remain accessible during build up and dismantling to other exhibitors.

HALL 1

Floorplan

Column details - Gran Via Hall 1

Column type C101

Floorplan & Dimensions

These columns are free of fire equipment and signage. Cladding can be made following the maximum height established by the regulations of each event.
